

Basic Statistics for Business and Economics with Connect Plus Access Card

Lind/Marchal/Wathen Basic Statistics for Business and Economics, 7e is the basic version of Statistical Techniques in Business & Economics 14e, our market best seller. Like the 14th edition, the 7th edition contains comprehensive coverage of statistical tools and methods delivered in a student friendly, step-by-step format but in a shorter, essential version of the big book. The text is non-threatening and presents concepts clearly in a conversational writing style. Statistical concepts are illustrated with solved applied examples. The text maintains a focus on presenting statistics content first and using software as tools to support interpretation of data and results.
