

Men of Our Times : Or Leading Patriots of the Day (Illustrated)

In these sketches of some of the leading public men of our times, the editor professes to give such particulars of their lives, and such only, as the public have a right to know. Every such man has two lives, his public and his private one. The one becomes fairly the property of the public, in virtue of his having been connected with events in which every one has a share of interest; but the other belongs exclusively to himself, his family, and his intimate friends, and the public have no more right to discuss or pry into its details than they have into those of any other private individual.
