Scientifically proven and historically evident techniques for getting MORE done in LESS time

? Are you a professional or a businessman who is just STRUGGLING TO FIND TIME? ? Do you feel more distracted, more extended and OVERBURDENED with work? ? Are you the one who keeps working at a breakneck pace all day, yet finding that there isnt much that you accomplished at the end of the day? ? Do you believe that you need to get away from the continuous cycles of hard-work while maintaining or increasing your productivity? ? Do you NEED TO HAVE A BALANCE in your life? ? Or are you an enthusiastic student who is just not happy with the little amount of material you study per day due to lack of time management skills? If So Then You Are In The Right Place: FREEZE YOUR WATCH will give you an excellent toolkit for tackling all these day to day issues and efficiently increase your pace of getting things accomplished. Dr. Shah Faisal Ahmad is a medical doctor by profession, an author of many books and a researcher who has spent years reading and writing about neurosciences and mental health as well as applying this knowledge to his own life for increasing his potential and productivity. He has compiled his knowledge of the SCIENTIFICALLY PROVEN TECHNIQUES TO INCREASE HUMAN EFFICIENCY AND PRODUCTIVITY in the form of this book. THE BEST THING ABOUT THESE TECHNIQUES is that they have stood the test of time as is evident by most successful persons in human history who have utilized these secret techniques. These people also have had 24 hours in their day as you do have but have proved out to be over 1000 times more productive than an average human being. Also, THE INTERESTING THING ABOUT THESE TECHNIQUES is that these have been known to man since many centuries yet this knowledge had been presented in a way that only a few curious minds among the masses took the

advantage and used to PERFORM THE SMART-HARD-WORK with EXTRAORDINARY PRODUCTIVITY. The rest (and most) found them so complex that they stuck to their olden and not so golden rules of toiling and sweating hard-work living just an average life and accomplishing less. What Dr. Shah has done in this book is that he has simplified these techniques and presented to the world in a very clear style that is easy to grab and develop as a habit as well as enjoyable to read. Giving a metaphysical yet possible description of his book, Dr Shah feels that if all the techniques provided in his book are used by a single person, his/her productivity would be as good as a God-gifted Time Management Mutant who can just FREEZE THE WATCH, APPARENTLY STOP THE TIME AND ACCOMPLISH WAY MORE THAN AN AVERAGE HUMAN BEING who is deprived of this knowledge. Here is a preview of what you are going to experience in this book: ? Advantages of managing your time ? The backbone of time management goal setting ? Achieving Psychological Momentum through Checklists ? The Magic and secrets of Cushion-time ? The role of Self-Discipline in time management ? The power of setting personal deadlines ? Utilizing your sleep for productivity boost ? Mastering the art of delegation ? Where to and where not to be a Multitasker ? Paradoxically utilizing procrastination to enhance efficiency ? The time blocks secrets revealed ? The Energy management shortest way towards increasing your potential ? The terrific relationship between productivity and waking up early And much more....
