

Mysticism: unabridged, with original annotated bibliography (Aziloth Books)

Evelyn Underhill was a brilliant scholar who spent many years researching the history and literature of the mystic way. Her book *Mysticism* was the result of all this endeavour, and has remained the classic in its field, constantly in print since its first publication in 1911. The book is divided into two parts, the first exploring the relationship of mysticism to such diverse subjects as magic, metaphysics, theology and psychology, while Part Two provides a detailed examination of individual mystical consciousness, covering the souls steps to Illumination. This pioneering study comes with a comprehensive annotated bibliography, allowing present-day students to find the primary texts described with such clarity in Underhills seminal work.
