

Noahs Ark: Adventures on Ararat

The Flood of Noahs day was the greatest cataclysm the world has ever known. For over a year, waves of water scoured the planet. All land creatures died except those aboard the Ark. After serving its purpose, the immense barge-like ship then disappeared from the Bibles pages. But what happened to it? Eyewitness accounts claim that a huge box-like wooden object still rests in the wilds of Turkey, partially covered by rock and ice. Starting in 1972, Dr. John Morris of ICR led numerous expeditions to this dangerous part of the world to find out. In this booklet, read just a few of the dangers and difficulties his teams encountered.
