Palmer Sinclair was on the edge of happily ever after when she broke off her engagement to Brady Grant. The end of their relationship marked the beginning of a painful solitary journey for her. Though she makes places beautiful with her work as an interior designer, the rest of her life is anything but beautiful its slowly pulling her under. Brady, a contractor, is swiftly building his business into an empire. Work is a faithful companion that never lets him down like Palmer did. When he sees women now, its on his terms. And his terms are simple: just sex. He wont let a woman break him again. Palmer is barely holding it together when she and Brady are unexpectedly paired on a project after a year apart. The pull between them is stronger than ever, but the fallout from their reconnection leaves them both wondering if maybe some things are better left unsaid.
